DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 14, 2008 has been entered.
2. Applicants' response and amendment filed along with RCE on July 14, 2008 is considered.
3. The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowed.

The present invention is drawn to a method for conversion of a cytosine base in a nucleic acid comprising preparing a solution consisting of an aqueous solvent, guanidinium and sulfite ions and treating a nucleic acid sample with said solution thereby deaminating said nucleic acid and incubating said deaminated nucleic acid under alkaline conditions to obtain a desulfonated nucleic acid. The closest prior art Zon (US 2005/0095623) teach said method, however, the prior art does not teach preparing a solution consisting of an aqueous solvent, guanidinium and sulfite ions and using said solution to deaminate the nucleic acid sample as reflected by the instant amended claims. Thus the instant invention was not taught or obvious over the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suryaprabha Chunduru whose telephone number is 571-272-0783. The examiner can normally be reached on 8.30A.M. - 4.30P.M, Mon - Friday.
